Options in this configuration...

1. Hide out of stock products: if you want to hide out of stock products than select this option, you can see only products in stock in Pos screen

POS stock in pos screen

2. Select Stock type to display product stock in POS

3. Allow POS orders when product out of stock

- select this option if you want to allow orders even if product is not in stock
- If this option is not enable that means order is not allowed when product is out of stock
- In this you can add your custom message for out of stock products in 'custom message' field
- add limit in 'Deny Order When product stock is equal to' field ...order will be denied when product qty reaches this limit
